ORAL RULINGS

Before we begin the direct case of PBS, there are several filings submitted by PBS on which the Tribunal would like to rule.

P-1447 First, PBS submitted an amended prehearing statement on June 17, 1985.

All parties were given an opportunity to object to the filing by June 28, 1985.

No objections were received. We have reviewed the filing and find that it is in accordance with our Order, and the prehearing statement is accepted.

P 1147 Second, in compliance with our ruling on evidentiary objections of June 14, 1985, PBS submitted to the Tribunal the underlying documentation of the McHugh and Hoffman survey. We received no request from any of the parties for an analysis of the data. As we stated in our Order, the underlying documentation will not be received as evidence, and therefore, PBS may come by our offices at any time to pick up the data.

*P 1447
-1448* Third, we received two amendments to PBS' direct case. The first was filed June 6, 1985. The second was filed June 19, 1985. We received no objections from any of the parties regarding the amendments. We will, accordingly, accept PBS' two amendments, and the testimony today will proceed according to PBS' amended case.
